Washing

DIVIDE WET PROCESS

- Simple solutions to separate the work area from the wash area
- The divide is always going through the entire depth of the worktop.
- We supply them in such materials, as safety glass, acrylic glass or high pressure laminate.
- Dimensions of divides are determined in dependence dimensions of sink cabinets. Dimensional range is: 600, 750, 900, 1350, 1500, 1650 mm
- Divide - wet process height 300 mm

TECHNICAL DATA

Type designation
Divide - wet process

Material design of divide for wet process
High-pressure laminate
Acrylic glass
Safety glass

Size of divide for wet process	
value	**width**
The divide is intended for the washing table with depth of 600 mm	600 mm
The divide is intended for the washing table with depth of 750 mm	750 mm
The divide is intended for the washing table with depth of 900 mm	900 mm
The divide is intended for the washing table with depth of 1050 mm	1050 mm
The divide is intended for the washing table with depth of 1350 mm	1350 mm
The divide is intended for the washing table with depth of 1500 mm	1500 mm
The divide is intended for the washing table with depth of 1650 mm	1650 mm
The divide is intended for the washing table with depth of 1950 mm	1950 mm
