HVAC attachments and grilles

AIR CONDITIONING GRILLES WITH POCKET FILTERS

Air conditioning grilles with pocket filters are used to exhaust air from rooms or from locations with dust generation. They prevent the transmission of pollutants and dust particles to the exhaust system. When exhausting air to air ducts from clean partitions, it is sufficient to fit the opening in the partition with a frame featuring a grille and a pocket filter.

TECHNICAL DATA

Product type
HVAC grille with pocket filter

Nominal dimension of grille
filter dimensions 287x287 mm
filter dimensions 287x592 mm
filter dimensions 592x592 mm

Neck diameter of exhaust adapter
diameter of exhaust neck of adapter 200 mm
diameter of exhaust neck of adapter 250 mm
diameter of exhaust neck of adapter 315 mm
without exhaust adapter

Surface of grille parts
stainless steel AISI 304
thermosetting powder coat Komaxit, hue RAL 9016
thermosetting powder coat Komaxit, hue RAL

Atypical design
Type design
Atypical design
Type design 0 - Unique specification out of offered versions Atypical design Q - atypical design that cannot be uniquely specified by a code
