Workspaces

PREPARATION TABLE

- The preparation table is primarily used for central sterilization.
    - Equipped with a three-drawer cabinet and a two-shelf gallery with installation columns.
    - Columns can be supplemented with:
        - Power sockets
        - Data sockets
        - Adjustable monitor arm
    - The worktop can be supplemented with:
        - Arm-mounted lighting
        - Adjustable monitor arm
        - Compressed air gun holder
- The table is made of stainless steel AISI 304, surface finish SB (ČSN 17 240, DIN 1.4301).
- Uneven positioning can be compensated using leveling feet.

Dimensional Range:

Table Width A (mm):	900, 1200, 1500, 1800, 2100
Table Depth B (mm):	750, 900
Table Height C (mm):	850
