HVAC attachments and grilles

AIR CONDITIONING GRILLES

Air conditioning grilles are used to exhaust air from clean areas. They are the end exhaust element with a direct connection to the HVAC exhaust pipeline, exhaust ducts, they can be installed in metal panels (even double-sided version), plasterboard partitions, doors of exhausted cabinets, etc.

VPK type	• Wall-mounted exhaust grille
VPR type	• Wall-mounted exhaust grille with regulation
VOB type	• Double-sided wall-mounted exhaust grille
OSK type	• Wall-mounted exhaust grille for operating theatres
OSR type	• Wall-mounted exhaust grille for operating theatres with regulation
VLA type	• Grille for laminated doors
